Chairman, City Improvement Trust Board,
MYSORE

To

C/ Narayanaswamy Naidu, Esq, B A, B L,
Secretary to the Government of His Highness
the Maharaja of Mysore, Law Department,
Bangalore

Sir,

Subject - Report on the Administration of the Mysore City Improvement Trust Board for the year 1941-42

With reference to your letter No L 5134-6 dated 23rd November 1942 re the subject noted above, I have the honour to forward herewith in triplicate a report on the Administration of the Mysore City Improvement Trust Board for the year 1941-42 This is being placed before the Board at its Meeting on the 23rd instant and their resolution will follow

I have the honour to be,
Sir,
Your most obedient servant,

B Raghavendra Rao
Chairman

HRS

MYSORE CITY IMPROVEMENT TRUST BOARD.

REPORT ON THE ADMINISTRATION OF THE MYSORE CITY IMPROVEMENT TRUST BOARD FOR THE YEAR 1941-42.

This Report is for the 31st year of the operation of the Board The President of the City Municipal Council continued to be the Chairman of the City Improvement Trust Board as per Government Notification No 11265/M1 156-18-2 dated the 4th March 1919

CHAPTER I - ADMINISTRATION

2 Chairman of the Trust Board.-

I continued to be the Chairman of the Board throughout the year

5

3 Members constituting the Board:-

Sir Charles Todhunter,K C S I ,JP resigned his seat as Trustee due to his retirement from service and Siddiq-ul-mulk Mr Sadeg Z Shah, Huzur Secretary to His Highness the Maharaja of Mysore was appointed Trustee in his place in Government - Notification No L 10192/M1 68-41-4 dated - the 24th April 1942 In their resolution dated the 25th March 1942, the Trustees - recorded their appreciation of the valuable and distinguished services rendered by Sir Charles Todhunter during the period of - fifteen years he was a member thereof

Mr P Sitaramiah, B A , B L , who was one of the Trustees of the Board, elected from the Municipal Council, having been appointed Vice-President of the Municipal Council with effect from 3rd January 1942, he became ex-officio Member of the Board, and in his place Mr T Mariappa,B A , LL B , was elected by the Municipal Council as a Trustee, and this was approved in - Government Order No L 8148/M1 56-41-150 - dated 9th March 1942 There was no other change in the constitution of the Board

The Names of Trustees that were on the Board at the close of the year are given in Appendix 'A'

B

4 Board Meetings:-

Statement No.I annexed shows the dates on which the Meetings were held and the number of Trustees present at each of them It will be seen therefrom that -- during the year under Report 12 Ordinary Meetings and one Special Meeting were held The average attendance at the Meetings was 74.3 per cent as against 77 3 and 77 7 - during the year 1940-41 and 1939-40

The total number of Meetings each of the Members attended is noted in Appendix 'B'

CHAPTER II

5 Schemes relating to acquisition of properties -

The following 16 schemes relating to the acquisition of properties were sanctioned by the Board during the year as - against 32 in 1940-41 Particular attention was paid this year to the completion of the schemes already sanctioned either not begun or in several stages of progress and therefore many new schemes were not - taken up -

1) Acquisition of dry land in S Nos 122 123 and 132 of Maragowdanahalli, Kasaba Hobli, Mysore Taluk, for continuation of the Sayaji Rao Road to Banni Mantap

2) Acquisition of garden lands 7,9,10, 11, 12 and 13 of Mysore Kasaba for improvement purposes

3) Acquisition of a portion of property No 1724 in Block Nos 80-82-83 of Krishnaraja Mohalla, for opening a conservancy

4) Acquisition of a portion of property No 1371/1 in Block No 2 of Lashkar Mohalla

5) Acquisition of Door No 826 in Block No 39, Nazarbad Mohalla, Mysore, belonging to Mr P G Ramachandra Rao, Advocate, for improvement purposes

6) Acquisition of a portion of property belonging to Mr M Achappa for footpath

7) Acquisition of certain properties in Block No 2, Lashkar Mohalla, for improvement purposes

8) Acquisition of garden lands Survey Nos 6 to 16 of Kukkarahalli Village, to the west of Saraswathipuram for improvement purposes

9) Acquisition of property Nos 2773 in Kannegowdanakoppal, Chamaraja Mohalla, belonging to Channegowda, for opening a road

10) Acquisition of properties 392 and 108 in Block No 74, Fort Mohalla, belonging to Ramakrishna Sastry and Shama Rao, for continuing the road from Chamaraja Road to Gurukar Devanna Street

11) Acquisition of Survey lands Nos 55, 56, etc , of Mysore Kasaba near Model Houses, Ramanuja Road, for improvement purposes

12) Acquisition of a portion of Site No 56 in Block I in Vanivilaspuram, belonging to Mrs A Sundaramma

13) Acquisition of a portion of property No (77), Door No 2762/1 belonging to Linge gowda, Son of Boregowda alias Chikka-Hydegowda in Kannegowdankoppal, Chamaraja Mohalla, for slum clearance.

14) Acquisition of a portion of property measuring 16 2/3 sq yds , of land out of Door Nos 162 and 163 in Block No 74 of Fort Mohalla, Mysore

15 Acquisition of portions of certain properties in Block No 85 of Krishnaraja Mohalla, for a conservancy

16 Acquisition of S No 210 of Maragowdanahalli, Kasaba Hobli, belonging to Mr C S Rangaswamy Iyengar for improvement purposes

As per details in para 10 below special attention was paid to the disposal of 249 properties notified for acquisition since 1934 and still pending and a good number of these were disposed off while in the case of many others the cases were in several stages of disposal One big handicap for the disposal of these was the want of sufficient funds to proceed with these acquisitions

6 Schemes relating to construction works:-

One hundred estimates as detailed in Statement No II were passed by the Board during the year and of these 81 estimates were sanctioned by Government and the remaining 19 were pending sanctior at the end of the year under report

7 Productive Works:-

The construction of a further set of 30 model houses on the Ramanuja Road, Fort Mohalla, (6 big and 24 small houses) out of the Palace and Narasimharaja Building Funds to provide cheap houses to poorer classes sanctioned in G O No L 7496-99/M1 51-39 dated the 18th April 1941 were completed during the year under report The original sanction of Government was for an estimate of Rs.20,160/-but this estimate had to be revised during the year for Rs 24,360/- owing to certain alterations during construction The revised estimates were sanctioned by Government in their Order No L 11780-3/M1 49-41-71 dated the 19th June 1942 In this estimate provision had been made for giving water supply to the buildings at a cost of Rs.960/- In the meanwhile an estimate for Rs 3,930/- for this work was received from the Sanitary Engineer As the approval of this and the subsequent revised estimate for Rs 4,650/- had to be approved by the Board and Government, water connections could not be given to these houses Further, the manner in which these houses have to be disposed of was under correspondence and Government have since ordered that the houses may be sold at upset price and action is being taken accordingly

Two more sets of model houses one near Kantaraja Urs park and the other in

Bale Urs Layam were taken up for construction during the year The former have been completed and have been reserved for sale in public auction The cost of these houses (west of Kantaraj Urs Park) has been met out of the funds Rs (5,000) placed at the disposal of the Board by the Municipality the same having been received by the Municipality as donation from the Merchants towards housing the poor This money represents the portion of collections made by the Merchants for the entertainment of Sir Mirza Mohamed Ismail then Dewan Rupees 5,000/- for the acquisition of the area on which these houses have been built was also given by the Municipality for clearing slums The cost of acquisition was Rs 6,427-4-0

Re: the houses in Bale Urs Layam:

In the year 1932 the Municipality took from the Palace two blocks of vacant sites in Chamundipuram and in lieu thereof six sites in Bale Urs Layam were given to the Palace with the idea of putting up quarters for the Professors and Teachers of the Maharaja's Sanskrit College But this area remained unbuilt In the meanwhile as it was considered necessary to link up the Chamaraja Road with Gurukar Devanna Street and to put up a bridge across the feeder channel to the Doddakere Tank, the Palace authorities were consulted if they were agreeable for the construction of the Model Houses, so that the road may be extended

B/

and a bridge may be put up and the improvements of the whole area taken up They agreed to this subject, however, to the condition that in respect of the disposal of the model houses built, preference should be given to the employees of the Palace This was accepted by the Trust Board and a scheme costing over Rs 15,600/- was sanctioned during the year.

The construction of these houses is since completed and the acquisition of the two houses for putting up a road having just been completed, the road work and the bridge will be taken up immediately In the meanwhile as a large number of applications from Palace employees ~~for~~ far more than the number of houses have been received, the Palace have been requested to arrange for the disposal of the houses paying to the Trust Board the amount spen by them for the construction of these houses, putting up the road and the bridg

13

CHAPTER III

PART I - LAND ACQUISITION

8 Land Acquisition Officer:-

The Chairman of the Trust Board continued to be the Land Acquisition Officer and dealt with the entire acquisition work himself, except in the case of agricultural revenue survey numbers in respect of which the Sub Division Officer, Mysore, was as usual the Land Acquisition Officer

In order to expedite disposal of acquisition cases in the City it is desirable that the acquisition of agricultural lands also are attended to by the Chairman since the present procedure of entrusting this to the Sub Division Officer involves unnecessary correspondence and delay and in cases where appeals have to be filed the procedure is most cumbersome A list of cases pending with the Sub Division Officer is given under para 10

9. Properties declared by Government:-

Thirteen properties as under were newly declared by Government for acquisition during the current year

Government Notification No & date	No of properties
a) L 3544-46/M1 23-41-12 6-11-41	3
b) L 3558-60/M1 23-41-6 6-11-41	1

Total	13

10 Properties acquired under the provisions of Land Acquisition Act

The number of properties acquired during the current year is the highest on record The figures for the last five years have been noted in the margin A list of properties notified for acquisition but still not acquired was put up during the current year and this was carefully reviewed and, except in those cases where properties had to be acquired for forming roads etc , to be put up urgently, preference was given to the older cases and their disposal expedited In spite of the large disposals during the current year there are still 148 cases notified and pending, and action is being taken for the prompt disposal of these cases The acquisition will involve a sum of Rs 167855/

1941-42	(year under report)	100
1940-41		69
1939-40		78
1838-39		52
1937-38		27
1936-37		37

Acquisition of agricultural lands done by the Revenue Department

The number of schemes with the Sub Division Officer at the beginning of the year was 8 involving a sum of Rs 13,018/- and the number sent to him during the year was 7 involving a sum of Rs 19,695/- The number of schemes disposed of by him was 4 and there are still the following 11 schemes pending, involving a sum of Rs 28,415/- A sum of Rs 18,168/- is pending as deposit with him -

1) Acquisition of S No 36/2 of Erangere for forming sites

2) Acquisition of 2 acres 10 gs of land in S No 134 of Mysore for forming sites in Block No 12 of Chamundipuram

3) Acquisition of S No 111,112 & 113 of Mysore Kasaba, for formation of sites to Bestars

4) Acquisition of S Nos 6 to 16 of Kukkarahalli Village for extension of Saraswatipuram

5) Acquisition of S No 258 of Mysore Kasaba for forming sites in Block No 9 Chamundi Extension

6) Acquisition of S Nos 133,121/1 & 122 of Maragowdanahalli for opening a new loop road to Banni Mantap

7) Acquisition of S Nos 11,12,13,14 & 15 of Erangere and S No 120 of Maragowdanahalli for Industrial Suburbs

8) Acquisition of S No 210 of Maregowdanahalli

9) Acquisition of S Nos 55,56,57 etc , of Mysore Kasaba, for improvement purposes

10) Acquisition of S Nos 166,170 and 171 of Maragowdanahalli for sites to Medars

11) Acquisition of S Nos 1,7,8,9,11 etc , of Paduvarahalli for Extension of Kalidasa and Gokulam Roads

The acquisition officer has been addressed to expedite the disposal of these cases As already noted in para 8 above, to avoid unnecessary delay and correspondence with the Revenue Department it appears to be desirable to get these acquisitions also done by the Chairman, both with a view to secure promptness and economy in these acquisitions

17

11 Acquisition by mutual agreement:-

Only one property was acquired by mutual agreement during the year This relates to the acquisition of 107 sq yds ,o: vacant land in Block No 70 of Nazarbad -- Mohalla belonging to Sri Mahadeswaraswamy Temple A sum of Rs 180/- has been awarde as compensation in this case

12 Payment on account of properties acquired:

The amount paid from the Trust Boa on account of properties acquired was -- Rs 75,924-2-2 including a sum of Rs 17,797/- sent to the Sub Division Officer, Mysore, for acquisition of revenue survey lands In addition, a sum of Rs 7,723-2-0 was paid as compensation out of contribution deposits

13 Description of properties acquired:

Of the 101 properties acquired during the year including the one by mutual agreement, 7 were vacant lands and the remaining 74 were houses and other structures

The important schemes of acquisitions which were attended to during the year are noted below

1 Bestageri:- Bestageri in Krishnaraj Mohalla is a big and important locality & is one of the worst slum areas Although the acquisition of properties in this area was sanctioned even as far back as 1936, the scheme was unfortunately held up and was taken up in right earnest only in 1940-41 Out of the 63 properties notified for acquisition, awards had been passed in respect of 21 cases up to the commencement of the year 1941-42 and during the year awards were passed in 36 cases leaving only 6 cases to be disposed of under the scheme Even these cases have since been disposed of thereby completing the scheme of acquisition In respect of cases in which awards have been passed, possession of the properties is also being taken quickly so that the slum area may be immediately cleared

As the original scheme which was made temporarily for slum clearance does not clear any compact block for the construction of new houses and a proper lay-

19

out, a lay-out has since been put up This lay-out provides for a four-year programme of construction being taken up in the cleared area and even if the first portion of the lay-out has to be taken up immediately some more properties have to be acquired Action is being taken to clear these properties and begin with the lay-out of the first portion referred to above

In this connection, the Municipality has agreed to come forward to advance necessary sums and to construct model houses in this area as per their Resolution below, and action is being taken accordingly

"Resolution No 664 dated 26-7-1941:

"Letter received from the Chairman, City Improvement Trust Board, requesting that a further sum of Rs 4,000/- may be placed at his disposal in order to complete the acquisition of properties in Block No 78 of Krishnaraja -- Mohalla

Resolution of the Managing Committee dated 16-6-1941 ~~Place before Municipal Council~~

Resolution:- Rs 4,000/- may be given as requested and the Chairman requested to hand over the entire area acquired to the Municipality for the construction of poor houses "

Simultaneous with the acquisition of properties in Bestageri, action

has also been taken to enable the dis-houses Bestars to construct houses in the area reserved for them In addition to the 12 sites to the east of the 9th Block in Chamundipuram, the possession of the adjoining survey lands, S Nos.110,111 and 113 of Mysore Kasaba has been taken and - this also formed into sites All persons whose houses have been acquired are being allotted sites in this area

Several of the dishoused people have already constructed houses and houses have since come up Owing to the nearness of the Betel vine gardens, the acquisition of which has been since sanctioned and is in progress the parties could not move into these houses Arrangements have however been made to take immediate possession of a small area near the houses and clea the same so that these bestars may move here In order to provide the full requirements of the people living in Besta geri proposals have also been put up to clear the survey numbers 110,111 & 113 nearby

2) Kannegowdankoppal:- A scheme for - effecting improvements to Kannegowdana-koppal at a cost of Rs 47,000/- has been approved by Government in their Order No L 6624-5/M1 99-39-79 dated the 26th/ 27th January 1940 As a first step in the scheme of improvement, the acquisition of properties, 62 in number, at - an estimated cost of Rs 30,546/- has -

21

has also been sanctioned by Government in their Order No L 9898-9900/M1 21-39-37 - dated the 29th May 1940 The acquisition of these properties was commenced in 1940-41 during which year awards were passed in 15 cases During the year - under report, awards in 40 more cases - were made leaving only 7 cases to be disposed of under the scheme at the end of the year under review These cases are also all in the award stages The - possession of most of the properties - which have been acquired has been taken The opening out of the two main roads ~~are~~ across road with necessary drainage and other incidental works is now being taken up in order to make the area more healthy and clean

Persons whose houses in Kannegowdankoppal have been acquired are being allotted sites formed in S Nos 15 & 18 - of the same village Twenty-two sites have so far been formed and these sites being very near the place of acquisition are in good demand As a matter of - fact it is seen that the number is not - enough and it is therefore proposed to acquire the adjacent ~~S.No~~ survey number also and form more sites for allotment to dishoused people Owing to lack of building - materials and high prices it has been very difficult for the dishoused people to build new houses It is hoped that the international situation will improve very early so that slum clearance and

house building activities may again proceed at great pace It has only been found - very difficult to give water supply and - electric lighting to these newly opened-out areas The springing up of these extensions is therefore not as rapid as could be desired and we have to hope for an early conclusion of the war in favour of the -- allies and that these schemes of Town Improvement in our City/ may come to early fruition

3) The other big scheme of acquisition is that relating to the acquisition of properties required for the formation of a new road and extension of the Krishnarajendra Hospital compound in Devaraja Mohalla This scheme was sanctioned by Government in their Order No L 4895-6/M1 20-40-8 dated - the 27th December 1940 Including the cost required for the formation of the road, the scheme is estimated to cost Rs. 1,25,000/- The number of properties notified for acquisition is 48 of which 32 are required for - the formation of the road and 16 for the extension of the Krishnarajendra Hospital - compound The acquisition of these properties was commenced during the year under report and awards were made in 16 of the properties required for the formation of the road As the amount available for this purpose was limited to Rs 20,000/- during 1941-42, the - outlay also had to be restricted Hence - the acquisition of the remaining 16 properties required to facilitate the completion of the

road has been taken up during the current year 1942-43 As regards these properties that are required for the extension of the Krishnarajendra Hospital compound, as the amount involved is very huge and as no funds had been made available, they were not taken up during the year This work is mainly for the improvement of the Krishnarajendra Hospital Government has been addressed to find the money from the Medical Budget

B

14 Reference to Court under Land Acquisition Act:-

Only one case was referred to the Court under Section 30 of the Land Acquisition Regulation This relates to the acquisition of property No (54) 1203 in Block 78 of Krishnaraje Mohalla (Award No 99 dated 30-6-42) and as in this case there was some doubt as to the apportionment of compensation between the hypothecatee and the owner, the case was referred to the Court

B

15 The following cases referred to Court under Section 18 of Land Acquisition Act were pending disposal at the end of the year under review:-

(a) Case relating to the acquisition of property No (3) 178 in Block No 27, -- Lashkar Mohalla - Thunga VenkataramanaSetty

(b) Case relating to the acquisition of property No (3) 169 and 170 in Block 28 Lashkar Mohalla - Venkataramana Setty

(c) Case relating to the acquisition of Property No 283 in Block No 53 Devaraja Mohalla belonging to the Muzrai Department and Mr.N.Krishnaswamy Rao

(d) Case relating to the acquisition of property No.(5) 164 & 165 in Block No 28 Lashkar Mohalla belonging to Mr M.N Naganna

(e) Case relating to the acquisition of property No (59) 1135 and 1512 in Block No 77 of Krishnaraja Mohalla, belonging to Mr A Basappa and others

(f) Case relating to the acquisition of property No (18) 60 in Block No 54 Devaraja Mohalla, belonging to Mr N.Thimmiah - and others

(g) Case relating to the acquisition of property No (285) 1357/1 in Block No 2 Lashkar Mohalla, belonging to Mr Ahmed Sait and others

(h) Case relating to the acquisition of property No 1295 (Cauvery Rice Mills) belonging to Mr Sivaramiah and others in Jeevanrayankatte, Mysore

(i) Case relating to the acquisition of property No (36) 1226 in Block No 33 Devaraja Mohalla, belonging to Mr Narayana.

Mr Narayanappa

(j) Case relating to acquisition of property No (2/A) 171 in Block No 20 Lashkar Mohalla, Mysore, belonging to Shamanna and others

(k) Case relating to acquisition of property No 75, Fort Mohalla, belonging to Messrs M S Rama Rao and others

Of the cases received decided, the following four cases have been appealed against in the High Court of Mysore and are pending decision:-

(1) Mis 51/37 on the File of the District Judge, Mysore, registered as Regular Appeal No 113/41 on the High Court - The Chairman, City Improvement Trust Board Vs Akkanagamma

(2) Mis 85/37 on the File of the District Judge, Mysore, registered as Regular Appeal No 115/41 on the High Court The Chairman, City Improvement Trust Board Vs Nagappa and others

(3) Mis 90/40 on the File of the Additional Sub Judge, Mysore, registered as regular Appeal 20/41 in the High Court - The Chairman, City Improvement Trust Board Vs Gopalakrishna Setty

(4) Mis 96/40 on the File of the Additional Sub Judge, Mysore, registered as R A 160/41 in the High Court The Chairman (Through Deputy Commissioner) C I T Board Vs Shamanna and another

PART II - CONSTRUCTION WORKS

16 Executive Control:-

Mr B Krishna Iyengar, B Sc ,B E , Assistant Engineer was in charge of the construction works of the Board till 9th September 1941 and Mr B R Manickam,B E , Assistant Engineer was in charge for the remaining period

17 Works attended to and expenditure incurred;

One hundred and seventeen works as detailed in statement No IV were in progress and the amount spent during the - year was 73,323/-

18 Classification of works:-

Of the aforesaid 117 works, 59 were incomplete works of previous years and the remaining 58 were fresh works - taken up during the year

	Particulars	Works		Expenditure		Total
		New	Old	New	Old	
				Rs.	Rs	Rs.
1	Sewage and drainage works	16	21	10,312	7,017	17,329
2	Roads and Streets	3	10	2,535	9,298	11,833
3	Public attractions	15	13	9,618	8,525	18,143
4	Special Works	3	-	13,144	--	13,144
5	Miscellaneous works	21	15	8753	4,121	12,874
	Total	58	59	44,362	28,961	73,323

take connections and the list was being regularly reviewed One important feature in respect of underground drainage during the current year is the keen interest displayed by the Municipality in rapidly extending this benefit to the portions of the City which have still not been sewered The Municipality have come forward to contribute half the cost in the case of laying 7" underground sewer lines in Block No 13 of Lashkar Mohalla at an estimated cost of Rs 9,350/-

Similarly they have agreed to contribute half the cost in the case of laying underground drainage to Saraswatipuram and Vanivilaspuram and portions of Mandi Mohalla

Re these special schemes a special establishment was sanctioned in the year 1940 as per Government Order No L6s 28-70/ML37 dated 25th Jan 1940 for extending the sewerage to Vanivilas Mohalla The report of the Sanitary Engineer was received in October 1941 This was discussed by the Municipal Council and the matter has again been referred to the Sanitary Engineer with regard to having out-falls in the different drainage areas instead of at one place as suggested by him in view of the difficulties we will be having in these days for - getting pumping equipment, etc The further report of the Sanitary Engineer is - awaited In the meanwhile several residents of Vanivilaspuram in Block IV/A are repeatedly complaining of the want of under ground drainage and they are also prepared to contribute to any scheme to be put up - by the Trust Board for giving them underground drainage connections An estimate for sewering this area only, the size of connections etc , being the same as per Sanitary Engineer's Estimate, and the - scheme fitting in with his scheme except for the construction of a small temporary septic tank to deal with this sewage, has since been sanctioned by the Board and the work will be taken up This will be -- financed by contribution from the residents of the area the balance of cost being divided equally between the Trust - Board and the Municipality

20. The stock registers were posted up-to-date

CHAPTER - IV

Part I - PROPERTY

21 The properties that were acquired during the year were noted in th Trust Board Property Register maintain for the purpose

It seems to be very essential me that these properties are inspecte at least once a year to verify that cept those disposed of by the Board vested in the Municipality the othe not continue to be in possession of original orders or have not been encroached upon since several instance

encroachments have recently come to notice
Separate proposals will be put up to Gover
ment regarding this matter

22 Building sites:

Statement No VI furnishes details of the sites available for sale at the beginning of the year under report, sites formed during the year, sites sold and those available for sale at the end of the year

It will be seen therefrom that 822 sites were available for disposal at the commencement of the year and 156 fresh - sites were formed during the year The areas in which these fresh sites were formed are noted below These do not include bits of land formed which will be separately dealt with in Para 23

(a) Three sites in Yadavagiri Extension, Vanivilas Uphalla

(b) 32 sites for the dishoused Bestars in revenue survey numbers at the junction of Viceroy and Ramanuja Roads near Sewage Farm

(c) Eight sites in the 9th block, Chamundipuram Extension

(d) Twenty two sites in Survey Nos 15 and 18 of Kannegowdanakoppal for the dishouses persons of Kannegowdanakoppal

(e) Eight sites in Jayanagar for the Officers and Officials of the Mysore - Horse

(f) Forty sites in the Padavarahalli Extension

(g) Two sites on the Ramanuja Road near the Model Houses

(h) One site in Devaraja Mohalla

(i) Forty sites for weavers near Adikarnatakapuram which have been proposed to be sold to the Adikarnataka weavers at a concessional price

In addition to these, during the year under report, about 100 sites were also formed between the Radio Station and Purniah Nala for Medars and others whose properties are proposed for acquisition in Devaraja Mohalla As this involved the acquisition of revenue survey numbers, the sites could not be actually allotted during the year and action has since been taken to take possession of these survey numbers and to allot the sites

Proposals were also set on foot to form sites for the Ganigars in the Kesare Block, Narasimharaja Mohalla to the Adikarnatakas in Kyathamana Halli and to the extra population in Kurubarahalli

For want of space to stock timber the timber merchants were stocking timber on the foot-paths and the road itself in some cases in the Mysore Manantody Road In order to provide space for them to stock timber the open space by the side of the Sacred Heart Dispensary has been laid out into sites and roads also formed

A detailed list of sites available for sale had been got printed even during the year 1940-41 and this was freely distributed among the intending applicants

It is also under contemplation to put up Mohallawar or blockwar maps showing clearly sites that are available for sale

Sixty six sites were sold during the year for a total price of Rs 21,877/- Including the instalments due in the year in respect of sites sold during previous years a sum of Rs 27,702-4-10 was realised during the year A good number of sites have been sold during the current year (42-43) and the proceeds realised have been quite satisfactory

Resumption of sites:- As it was found that in several new extensions persons that had purchased sites had left them vacant and the object of the formation of sites viz , construction of new houses to enable slum areas in the City being cleared, was being frustrated, lists of sites sold and not built upon in each Mohalla were prepared and notices were issued to the owners that unless houses were built thereon, their sites will be resumed

It is very necessary that if we want to prevent profiteering in sites and remove congestion in the City by encouraging migration into the extensions, the resumption clause in respect of sites purchased and not built upon should be strictly enforced so that persons who purchase sites may know that if they do not build on them within the prescribed period they will be resumed and will be resold +

others who want them really for building - houses The rapid construction of buildings in these extensions will lessen the congestion in the City and thus contribute largely to the increased sanitation and health of the Town and will also bring in more revenue to the Municipality

Another important point to be noted in the formation of sites in the current year is that provision has been made in - the estimate for forming sites for metalling of roads, laying of ordinary and underground drainage and water supply lines It was repeatedly being urged both in the - Municipal Council and outside that in the areas laid out by the Trust Board, drainage water supply and metalling of roads were - not being attended to with the result that even years after the extension was formed the area was not drained and not sewered - and had no roads It was with a view to meet this and also to make the sites more attractive for building construction by - giving them all up-to-date amenities, it was resolved by the Board that in all new lay-outs these essential items should be provided for in the lay-out estimates itself so that the extensions may be complete unit in themselves and the cost added on to the cost of sites. Of course this meant that - sites in newly laid out extensions could no longer be given out at 0-1-0 to 0-4-0 a sq yard and ~~then~~ then price vent up to a minimum of 0-8-0 to 0-12-0 but people have begun to - feel that it is far better to pay a higher

initial rate for sites and have good roads, water supply and underground drainage laid-out once for all than buy them cheap and not have these amenities for years together

23 Bits of land:

Statement No VII furnishes details of bits of land available, formed and sold and the amount of revenue therefrom In addition to 169 bits of land which were available for sale at the beginning of the year, 75 new bits were formed during the year and out of a total of 244, 64 bits were sold for a total sum of Rs 10,046-4-10 At the end of the year there were 180 bits available for sale which are ~~not~~ now being disposed of The amount outstanding in respect of bits of land sold at the end of the year was Rs 2,245-8-8 which has been permitted to be paid in monthly instalments

24 No amount is outstanding on account of Model Houses in Chamundi Extension

The outstandings on account of Model Houses in other Extensions are given below :-

(a) Vanivilaspuram Rs 34 6 10

This was due by one Mrs Parvathamma who has since paid the amount

All the 10 houses have now been disposed of and it is gratifying to note that after reduction in the amount of instalments sanctioned in G.O No.L 763-67/M1 84-40-60 dated 3rd July 1941 the instalments are being recovered regularly

*(b) Gokulam Houses - 11,830 3 4

(c) Narasimharajapuram 109 12 10

This amount is due from one Muniswamy in respect of House No 31 (Design B) in the Military Block It is stated that the person has gone on active service and the matter is under correspondence with military authorities

(d) Fort Mohalla 14,094- 4-10

This amount is due in respect of the Model Houses in Srinivasan Agrahar which is being regularly recovered in monthly instalments

25 Properties acquired and revenue derived therefrom:-

By the sale of dismantled materials of acquired properties, a sum of Rs 1,302/- was realised during the year A sum of Rs. 113-12-6 was also realised during the year by the sale of right of removing the usufruct of certain trees belonging to the Trust Board

26 Free gifts of land:

(a) In Resolution No XVI dated 29th January 1941, an extent of 3555 5/9 sq yds , facing market road in Vontikoppal, was granted in 1940-41 to Latru Mandali, free of cost This was included in the last year's Administration Report Subsequently Mrs B Kameswaramma, Organizer, represented that as the site granted was not situated in a central place, Site Nos 19 & 20 in Block No V of Vanivilaspuram by the side of Adipumpa Road measuring 300' x 100' may be granted Accordingly during the year under report these two sites were granted subject to the same conditions as had been agreed to in respect of the site previously given which was handed over back to the Trust Board The Organizer has also entered into an agreement with the Board specifying the uses to which the land would be put into failing which the Trust Board shall be free to resume the said land with structures thereon without payment of damage or compensation for such resumption

(b) Free grant of land for construction of a High School by the Roman Catholic Mission

At the request of the Roman Catholic Mission, Mysore, and on the recommendation of the Board, Government sanctioned in their Order No L 10005-9/M1 23-41-41 dated the 17th April 1942 a free grant of 14,982 sq yds , of land to the north of the Protestant Cemetry in Narasimharaja Mohalla at the

Junction of the Travellers' Bungalow Road and the Rampart Wall Road, to the Mission for the construction of a building for - locating the High School, with the stipulation that if the building should be used - for any purpose other than a High School, the Government will have the first right to take it at its market value to be determined by the Engineering Officers and that the building should be constructed according to a plan to be approved by Government Action is being taken to obtain the usual agreements from grantees

(c) A free grant of Site No 69 in Block I of the Mysore Manantody Road Extension measuring 80' x 50' or 444 4/9 sq yds , was made during the year for the construction of a Rama Mandir for Adikarnatakas

(d) Site Nos.50,51,58, 59 & 60 in Blk I Manantody Road Extension which had been allotted to private individuals were resumed during the year under report with a view to allotting them to the New Creche Necessary further action is being taken the matter

PART II - FINANCE

27 The State Grant to the Trust Board during the year was Rs 1,50,000/- as in the previous year Statement No VIII furnishes details of receipts and expenditure under the several heads The year opened with a opening balance of Rs 78,758/- and the receipts from all sources including receipts under suspense accounts and the Palace and Narasimharaja Building Funds amounted to Rs 2,98,677/- thus making a total of Rs 3,77,435/- The total expenditure for the year was Rupees 3,14,936/- leaving a closing balance of Rs 62,499/-

28 House Building Loan:

Statement No X furnishes details of outstandings under this head No - loans were granted during the year under report The sum of Rs 225-6-2 is at present due from 3 people and action is being taken against them for recovery of this amount

42

29. House Building Advances:

41

No advances were made during the year under report Statement No XI furnishes details of amounts advanced and recoveries made so far At the beginning of the year under Report, a sum of Rs 720-3-2 was outstanding recovery and out of this a sum of Rs.183-5-10 has been recovered during the year under report A sum of Rs 536-13-4 is pending recovery This is due from Mr. Mohamed Ghouse who was formerly a Sub-overseer of this Office and is now in the Mysore Division Monthly instalments are being recovered out of his pay regularly and remitted to this office

BD

30 The total amount of outstandings to the Board on the 30th June 1942 was Rs 37,608-11-10 as against Rs 37,992-7-8 at the end of the year 1940-41

A Loans and Advances:

1) House Building Loans	Rs	225	6 2
2) -do- Advances		536	13 4
Total	Rs	762	3 6

B Value of sites etc , sold:

1) Building sites	Rs	8,532	3 10
2) Bits of land		2,245	8 8
Poor houses constructed out of Palace and Narasimharaja Building Funds		14,094	4 10
Total	Rs	24,872	1 4
Grand Total	Rs	25,634	4 10

C 1 Outstandings in respect of Gokulam Houses		11,830	3 4
2 Model House in Narasimharaja Mohalla		109	12 10
3 Model House in V V Puram		34	6 10
Total	Rs	11,974	7 0
Total of A,B & C	Rs	37,608	11 10

As noted above all these except a sum of Rs 335 3-0 in respect of which separate action is being taken, is being recovered in regular monthly instalments

31 The establishment charges viz., salaries and allowances including pensions, contingent charges etc, amounted to Rupees Rs 31,102/- during the year as against Rs 27,147/- in 1940-41 The increase in expenditure was due to the payment of -- arrears of moiety of pay of the President, City Municipal Council and the Trust Board Engineer and the grant of Dearness Allowances to employees

32 Both the indoor and outdoor subordinates continued to work satisfactorily

GENERAL:

(a) Improving of roads and Circles

The Sayyaji Rao Road beyond the Institute for Defectives was further lowered in the ridge portions so as to permit of easy approaches to the New Bamboo Bazaar sites at the beginning, and the road up to Bannimantap was neatly formed and opened for traffic This has become a very popular road as it leads direct to the Octroi Office and is a nearer approach from Seringapatam Road to the Railway Station and other important places in the City Further improvements to this road and metalling the same, forming footpaths etc , have been taken up during the current year

(b) New Santepet and filling up of Purniah's Nala:

The ugly and undulated area in front of the New Santepet buildings was levelled and formed nicely into terraces The work of filling up Purniah's Nala with railway cinder was continued as usual and a length of 500 feet more was filled up during the year under report The Merchants' Association Building in the New Santepet was completed during the year

Action has also been taken to prevent grain being taken in open carts and measured on the streets in the Old Santepet area and to concentrate as far as possible all measurements of grain in the

New Santepet only This provoked a - little opposition at first but things are gradually settling down now and measurements are being made as a matter of routine in the New Santepet only where considerable facilities for this purpose exist.

The question of forming a cartstand in the New Santepet area is still engaging the attention of the Trust Board

Several merchants having represented that the number of shops now existing in New Santepet was insufficient and urged the need for some more sites being laid-out, proposals have been put up for the - extension of New Santepet and a new lay-out opposite the School for Deaf and Blind Boys and further to the north of it, is - being made in consultation with Mr Krumbiegal If and when the underbridge road connecting up the Radio Station with this area is put up and also the new road contemplated between the Bamboo Bazaar and Yadavagiri is also laid out this area is sure to become one of the most important - and prominent in the Mysore City The - large clamour for sites here from merchant classes is an indication of the growing importance of this area

Formation of a Park:- The area between the Nala and Sayaji Rao Road starting from the central approach road right up to the end of the buildings was neatly levelled and formed into terraces and a Park is being

46

laid-out here

Owing to the very heavy traffic on this road it is proposed to have two sets of roads, one for fast traffic and one for country cart traffic The plans have been approved by the Consulting Architect and the same are being forwarded for approval

(c) The New Bamboo Bazaar:

With the improvement of roads in front, the construction of several buildings was started by the respective owners and they are all in different stages of completion The complete shifting of the Bamboo Bazaar has been held up partly due to the delay in shifting the Epidemic Diseases Hospital The question of shifting the E D Hospital is under correspondence between Government and the Senior Surgeon and the estimate for Rs 2,81,000/- originally prepared for the construction of a new hospital is stated to be under revision

(d) New Industrial Suburbs:

The growth of an industrial colony in the New Industrial Suburbs is going on steadily Sites in this locality are now in greater demand Industries located - within the heart of the City are being - gradually shifted to the Industrial Suburbs by refusing to renew Municipal Licenses for running these industries in the City itself The roads in this area were further improve during the year and a few culverts also

constructed As the area now available in the Industrial Suburbs near Bannimantap is almost filled up and as there is a -- growing demand for further sites for Industrial purposes it is proposed to have another industrial area in Vanivilaspuram to the West of Gokulam Road This area is now being surveyed and a layout being formed

(e) The work of forming the new deviation road between Sayaji Rao Road and - Princess Road through Seshadri Iyer Road was continued during the year and made - considerable progress A contribution - of Rs.6,000/- was paid to the Railway Department for the construction of an underbridge through which this road passes The portion of road running under the Railway bridge between Dewan's Road and Princess Road was started and completed during the year excepting surfacing work This has considerably relieved congestion of traffic at Railway Crossing, many fast moving vehicles using this road in preference to the old road

(f) The work of linking Gokulam Road with Princess Road was completed during the year and opened for traffic

(g) The layout of sites with necessary road, parks, and play grounds for children in the open area between Padavarahalli and Yelwal Road was completed during the year

(h) Cutting of hallas, levelling of - mounds, filling pits, draining of pools etc as a permanent

as a permanent means for improvement of sanitation the above works were undertaken all over the City The following are some of the important areas so dealt with The utility of these works have been greatly appreciated by the residents of the localities who now find good flat lawns in areas which were previously plague mosquito infected foul smells spots & ~~public latrines~~ and haunts of cobras and other reptiles -

(1) The draining off of the big pool to the south of Gokulam Road between Blocks II/C and IV in Vanivilaspuram was taken up and practically completed during the year There has been a marked improvement in the locality since the completion of the work ~~as the pool besides being an ugly spot was a fruitful breeding place of mosquitoes and consequent unhealthiness of the locality.~~

(2) Several small cess pools round about Gokulam Road were also filled up and the small katte in front of Gokulam Houses was drained suitably so that there was no stagnation anywhere

(3) The other katte opposite Gokulam is being similarly dealt with but there was some unavoidable delay in completing the work as certain private properties had to be acquired The katte to the south of Jayanagar Extension was breached and the area levelled

(4) The pond to the west of Saraswathipuram was trimmed and the whole area -- levelled up The pond has been contoured and edges trimmed so that the rise or fall

in water level of this pond is only along a defined edge and consequently will not occasion forming of little pools each one of which would breed hundreds of mosquitoes and was also being used for other insanitar purposes

(5) The drains that were running crookedly with a number of pools all over in -- Krishnarajavanam were trimmed and ~~wxii~~ all unnecessary water course hallas filled up This has considerably reduced mosquito -- breeding here besides providing a plain - area for games for the boys of Sharada - Vilas High School As there is a continuous flow of seepage water here it is proposed to lay earthen ware pipe here below ground and thus stop the superficial flow of water

(6) The old halla running behind Vanivilas Market, Motilal Talkies and old Nanjangud Road was similarly dealt with and closed

(7) The channels in the Sewage Farm and in the old betel wine garden were trimmed up

(8) The Doddakere drainage halla was constantly timmed up and in the Doddakere bed action has been and is being taken to cut ridges and fill in hallas so as to - prevent mosquito breeding

Indiscriminate grazing of cattle - and buffalos in the Doddakere Tank Bed has now contributed partly to the filthiness

in this area especially as the buffalos - wallow in the mire and cause unsightly and insanitary patches of dirty water The - question of controlling grazing in this - area is under consideration

(i) Drainage - The storm water drains all over the City were improved, particularly in Krishnaraja Mohalla This greatly improved the draining away of swampy areas and in preventing flooding into houses during rainy season The following are the important drainage works carried out:-

(1) Improving storm water drain on the northern side of Vanivilas Road from Chamundeswari Road to Vanivilas Milk Centre

(2) Constructing storm water drain on the southern side from Thyagaraja Road and onwards in Gurukar Devanna Street

(3) Constructing storm water drain in Chavadi Street

(4) Constructing storm water drain along Sayaji Rao Road, beyond Bus Terminus

Sullage and sewage water that was flowing in some of the storm water drains due to unavoidable defective underground connections was diverted into sewer lines in the area of Devaraja Mohalla and Albert Victor Road

The large extent of sand that was being brought into the City through the main drain was utilised during the current year for - civil works within the Municipal area --

area by employing a special gang to clear this drain sand and wash and clean the same and use the clean sand for special purposes, the other sand ~~for~~ being utilise for filling up pits etc ,

Improvements to Doddakere Maidan and formation of a stadium:-

During the year under report another large block in Doddakere area was taken up for levelling and was utilised for the University Olympic sports and the Military Sports during Dasara 1941. The Doddakere Maidan has at present been leased out for nominal sums to the several schools and colleges and sports associations Some of them are using these fields while others are not and on the whole the area is not, ~~one must admit,~~ maintained as well as it could be done The question ofhow to maintain this are in a better condition is engaging attention

The construction of a stadium in this maidan is it is understood being dealt with by the Engineering Department In the meanwhile however the Mysore Foot Ball Associationwhich is making a good sum of money by letting out on contract their area for wrestling and other matches, could be made to improve the surroundings and this will be taken up for consideration.

(J) Preparing correct up-to-date Block Plans of the City of Mysore -

The necessity for preparing an up-to-date Block Plan of the City of Mysore has been fully explained in the Administration Report of 1940-41 Government were accordingly pleased to sanction in their Order No L 3787-90/M1 48-41-20 dated the 11th November 1941 the entertainment of 4 Sub-Overseers for completing the Block Plan Survey As the establishment was entertained late much progress could not be achieved during the year under report and it is therefore continued during the current year also About half the area of the City has so far been resurveyed and corrected block plans prepared

Special Schemes under consideration:-

(i) Forming a square opposite Motilal Talkies:- The area round about Motilal Talkies is very insanitary and improvement in this area and Adam Khan Masjid Street are urgently to be taken up In consultation with Mr Krumbiegal plans and estimates have been got prepared for the lay-out of this area including the extension of the Municipal Vanivilasa Market This scheme however involves acquisition of a very large number of properties involving heavy cost As sufficient funds are not at present available, the grant during the year having been drastically cut down to only Rupees

Rs 75,000/- this scheme cannot be taken up till more funds become available

(ii) The improvement of Ane Sarot Street is also a great necessity The old and - rickety buildings here are proposed to be acquired and shop sites formed A row of shops opposite the Devaraja Market similar to that on the Sayaji Rao Road can be built The scheme is estimatedto cost about Rupees 65,000/-, out of which a major portion can be realised by sale of sites

(iii) There is also a proposal to continue the road by the side of Elgin Fountain right up to the Viceroy Road opposite District Office This road when formed - will open out one of the filthy areas in the City This scheme is a huge one but if sufficient width of properties are -- acquired it is expected that the scheme although it may not entirely be self-supporting, may yet be made to pay itself to a very large extent of the outlay on - same

(iv) Acquisition of properties near Makkaji Chowk and the continuation of the road in front of the Palace to join the summer Palace This also involves the acquisition of several house properties involving heavy cost and these two projects had to lie over for want of funds

These are only a few of the more important schemes that are under contemplation by the Board Any scheme of

improvement will necessarily involve heavy initial cost and the finances of the Board not being elastic, it has not been possible to take up a number of schemes however - good or necessary in themselves till funds are available

Conclusion:-

In concluding this Report, I wish to offer my grateful thanks to the Members of the Trust Board whose assistance has - been very helpful at every stage in the development and execution of schemes ~~Many~~ our thanks are also due to Mr Krumbiegal the Consulting Architect who whenever he comes to Mysore gives one morning for - inspection of Board works and schemes - under contemplation and unstintingly - places his valuable experience at our - disposal

I wish also to acknowledge the - loyal services rendered by the Officers and staff of the Board to whom my grateful thanks are due

Mysore City Improvement Trust Board

Reviews the report on the administration of the —— for the year 1940 41

READ—

Letter No 2084 dated 20th November 1941 from the Chairman City Improvement Trust Board Mysore forwarding the report on the working of the Board for the year 1940 41

ORDER NO L 6769 73—ML 116 41 2, DATED BANGALORE, THE 4TH FEBRUARY 1942

Recorded

2 *Constitution* —The Board was reconstituted for a period of two years from 13th April 1941 As in previous years, the Board consisted of the Chairman and eight members, of whom two were elected by the Mysore City Municipal Council, three were *ex officio* and the rest nominated by Government In the reconstituted Board, the Superintending Engineer, Mysore Circle, was nominated as a Trustee in place of the Sanitary Engineer so that the Board may have the benefit of the technical advice of a senior engineering officer Mr M Navaneetham Naidu, who was the Chairman of the Board till 2nd January 1941, was succeeded by Mr B S Raghavendra Rao from 3rd January 1941

3 *Meetings* —The Board held twelve ordinary meetings and one special meeting The average attendance at the meetings was 77 3 (77 7) per cent

4 *Finance* —The receipts during the year including the opening balance and the State grant of Rs 1,50,000 amounted to Rs 4,02,831 The expenditure was Rs 3,24,073 as detailed below, leaving a closing balance of Rs 78,758 —

		Rs
1	Acquisition of properties	82 840
2	Construction of drainage and other works	78 653
3	Establishment charges	27 147
4	Miscellaneous charges	15 227
5	Suspense accounts	1 06 279
6	Narasimharaja and Palace Building Funds	13 927

5 *Acquisition* —Thirty two schemes relating to the acquisition of properties were sanctioned Ninety three properties were declared for acquisition during the year Sixty seven properties were acquired under the provisions of the Land Acquisition Act The amount of compensation paid from the Trust Board Funds on account of the properties acquired was Rs 71,759 in addition to a sum of Rs 8,016 paid out of contribution deposits

6 *Construction Works* —One hundred and forty three construction and other works were in progress during the year The receipts under the Palace and the Narasimharaja Building Funds from the inception of the scheme to the end of the year under report amounted to Rs 1,68,477 and the expenditure to Rs 1,61,182 It is proposed to take up the construction of another 12 model houses out of the funds still available With a view to provide cheap houses to the poorer classes, the construction of a set of 30 model houses at a total cost of Rs 20,160 sanctioned last year was taken up and it is nearing completion

No L 6769 73—ML 116 41 2, DATED 4TH FEBRUARY 1942

7 *General*—The Sayaji Rao road beyond the Institute for Defectives and the Krishnaraja road beyond its junction with the Kantaraja road were improved during the year Traffic islands were constructed in the circles at the junction of the Irwin and the Viceroy roads The work of filling up Poorniah Nala with railway cinders was continued as usual and considerable progress made Action is under way to improve the slum areas, *viz*, the Bestageri in Krishnaraja Mohalla and Kannegowdanakoppal Sites are being provided to the dishoused people of the locality The Cauvery Rice Mill in the Jeevanrayankatte was acquired and demolished The work of laying a new road linking the Sayaji Rao road with the Princess road through the Seshadri Iyer and the Viceroy roads under a new railway bridge is under progress A notable feature of improvement to the Padavarahalli village was the draining of the swampy area to the south of the village by cutting a defined channel at the centre to take up all the surface and seepage flow, and filling up the many cess pools in the area to prevent the breeding of mosquitoes

8 Free gifts of land were made during the year to the (1) Merchants Association, (2) Matrumandali, and (3) to Asthana Vidwan Pandit Sadasivasastry for being added on to the original site given for the construction of a Siva Temple in Vanivilaspuram
